12.30 Lunch

13.30 **Plenary**

Amex Heritage Leadership Panel: New strategies for expanding our audiences

Moderator : Fiona Reynolds

Panel Members: Katherine Malone France, Emily Drani, Bonnie Burnham, Richard Engelhardt

The shift from managing cultural heritage ‘for people’ to managing ‘with people’ is one the National Trust movement has embraced and championed. Our expert panel will share case studies and emerging trends from across the globe around engaging communities where heritage is at risk; how private fundraising can deepen and expand connections; ways in which heritage contributes to sustainable, liveable communities; and the use of programming and unlikely partnerships to challenge perceptions of heritage.

15.00 Performance of Indonesian Traditional Opera “Bali Agung”

17.00 Return to Hotel

19.00 Welcoming delegates to Puri Gianyar Royal Palace

19.30 Dinner in Puri Gianyar Royal Palace

11.30 Closing Speech – Fiona Reynolds

12.00 Lunch

13.00 Conference ends

Saturday, 16th of September 2017

POST CONFERENCE HERITAGE TOURS

08.00-17.00

Delegates to select one of the following: Subak Gianyar Tour; Sanur Beach Tour; Old City of Denpasar Tour or Karangasem Spiritual Tour

Subak Gianyar Tour:

Subak is a traditional Balinese system for water irrigation management which has been in existence for hundred years. This is a manifestation of the Hindu Philosophy "Tri Hita Karana" which means the life balance between our respect to the God as a creature of this earth, the tolerance with other human beings, and our harmony with the natural environment. Hence subak maintains the ritual at temples related with water sources, the rice field and other plantation, and how the democratic system of this traditional organisation is implemented. This tour will explore the old temples of Pegulingan, Tirta Empul, Mengening and Gunung Kawi, and will include a visit to the beautiful panoramic views of terraced rice fields, as well as a light dialogue with Balinese farmers on site.

Sanur Beach Tour:

Sanur is the area known as "The Morning of Bali" as it offers the best location to enjoy the sunrise framed by a quiet beach. Tourist activities started here in the 1920s. But this tour will explore Sanur and its hidden heritage. It will demonstrate that Sanur is not only a beach with white sands, but with a lot of valued tradition maintained. There are centres of priest compounds in Sanur, village market related to rice fields that remain among rows of five star hotels. It will be interesting to explore the community activities and the Balinese traditions in this area by bicycle.

Old City of Denpasar Tour:

A walking tour around a heritage compound in the capital city of Bali. The visit will take in a combination of the multi-ethnic old quarter comprised of Chinese, Indian, Arabic and Balinese each with their unique trading

activities spread among the rows of shops and houses along the old street of Gajah Mada. A big traditional market of Pasar Badung provides the chance to see varieties of local fruits, vegetables and material for Hindu offerings and goods for Balinese daily life which are on show in this unique market. This tour gives you the opportunity to admire the Balinese pattern of traditional architecture through its system of Catus Patha. This is a crossroads with a sacred value - the zero point of Denpasar and its landmark named Catur Muka statue - with each corner of the big square used for public activities, together with the Jagatnata temple as centre of religious activities.

Karangasem Spiritual Tour:

The unique atmosphere of eastern Bali is manifested by the spectacular panoramic views of the cultural landscape-(saujana) heritage combined with Mount Agung, the biggest volcano in Bali, sea harbour, rows of terraced rice fields, and virgin rainforest complete with edelweiss and local endemic flowers. The tour will offer a spiritual experience in visiting Besakih Temple, the mother temple in Bali, the centre of religious Hindu pilgrimages. This tour will be completed with a visit to enjoy the Festival Subak at Sidemen, an old village known for its Balinese hand woven products.
